

Sustainability Priorities

SUSTAINABILITY GOALS

Meets or exceeds the City of Denver's climate and sustainability requirements

BUTTERFLY PAVILION

POLLINATOR PROTECTION

Partnership with Butterfly Pavilion for habitat and pollinator protections

HEAT-REFLECTING

Cool/sustainable roofs to dramatically reduce the heat island effect

SOLAR-READY

Buildings equipped for renewable energy

DROUGHT-RESISTANT

Water-wise landscaping and native, drought-resistant plants

SMART COMMUNITY

Smart meters and systems to promote changes in water and energy usage

~1000 NEW TREES

Proposed development and parks will more than double existing tree canopy since 2019

WATER-WISE

Replace water-intensive bluegrass sod with native, drought-tolerant plant palettes
